JANUARY HIGHLIGHTS:

- **Balanced CMBS sleeve:** Net positive trading month with three buys and a sell totalling ~\$1mm; the portfolio continues to carry a bias towards higher quality bond sectors while positioning for attractive risk-adjusted yield and total return. The portfolio spreads materially tightened with AAA spreads tighter and the credit curve flatter as demand for new issue and seasoned CMBS bonds was strong during the month. AAA bonds provide defensive positioning, liquidity, and reasonable carry. AA and Single-A bonds offer relative value, attractive positioning on the CMBS credit curve, strong carry, and longer term total return potential.
- **CMBS Cash Proxy sleeve:** Portfolio composition remained stable during the month with no trades to report. It remains concentrated in AAA securities carrying defensive credit positioning and strong liquidity profiles including Agency guaranteed and conduit super senior AAA bonds. High quality portfolio composition generated positive returns for the month.
